SCHEDULE 2

Mandatory for Procurement under Bank-Financed Contracts Subject to National Competitive Bidding

Contracts for goods or works for which the Loan Agreement allows procurement under paragraphs 3.3 and 3.4 of the Procurement Guidelines may be procured in accordance with the provisions of national laws and regulations with the following exceptions:

A. Procedures

An open competitive procedure shall be followed in all cases, irrespective of contract value. Foreign firms shall not be excluded and eligibility requirements shall be common for national and foreign bidders, with no preference of any kind given to national bidders or bidders from any regional market. Invitations to bid shall be advertised in at least one (1) widely circulated national daily newspaper or the Official Gazette, allowing a minimum of thirty (30) days for the preparation and submission of bids. Adequate response time shall be provided for preparation and submission of bids.

B. Assessment of Bidders’ Qualifications

Prior registration shall not be required to participate in bidding procedures. When pre-qualification shall be required for large or complex works, invitations to pre-qualify for bidding shall be advertised in at least one (1) widely circulated national daily newspaper or the Official Gazette, allowing a minimum of thirty (30) days prior to the deadline for the submission of pre-qualification applications. Minimum experience, technical and financial requirements shall be explicitly stated in the pre-qualification documents, which shall be determined by a ‘pass/fail’ method, not through use of a merit point system. Prequalification shall be based entirely upon the capability and resources of prospective bidders to perform the particular contract satisfactorily, taking into account their experience and past performance on similar contracts, capabilities with respect to personnel, equipment and construction or manufacturing facilities, and financial position, and all applicants that meet the specified criteria shall be allowed to bid. Where pre-qualification is not used, the qualifications of the bidder who is recommended for award of contract shall be assessed by post-qualification, applying minimum experience, technical and financial requirements which shall be explicitly stated in the bidding documents. All qualification criteria so specified in the pre-qualification documents or bidding documents, as the case may be, and only such qualification criteria, shall be used to determine whether a bidder is qualified.
C. Participation by Government-owned Enterprises

Government-owned enterprises in Romania shall be eligible to participate in bidding only if they can establish that they are legally and financially autonomous, operate under commercial law and are not an dependent agency of the contracting authority. Furthermore, they will be subject to the same bid and performance security requirements as other bidders.

D. Bidding Documents

Procuring entities shall use the appropriate standard bidding documents for the procurement of goods, works or services, which shall contain draft contract and conditions of contract acceptable to the Bank. The bidding documents shall provide clear instructions on how bids should be submitted, how prices should be offered, and the place and time for submission and opening of bids. Standards and technical specifications quoted in bidding documents shall permit the broadest possible competition, and wherever national standards are specified, the bidding documents shall also state that equipment, material, or workmanship meeting other standards, which promise at least substantial equivalence, will also be accepted. Bidding instructions shall clearly stipulate that discount, if any, must be stated by the bidder either in a cover letter or in the bid form. In case of joint ventures, bidding conditions shall stipulate joint and several liability of all the partners of the joint venture.

E. Evaluation Criteria

Evaluation criteria shall be clearly specified in the bidding documents, and evaluation criteria other than price shall be quantified in monetary terms. All evaluation criteria so specified, and only such criteria, shall be taken into account in bid evaluation.

F. Bid Submission, Opening and Evaluation, Award of Contract

(a) Bids shall be submitted in a single envelope containing the bidder’s qualification information, technical and price bids, which shall be opened at the public bid opening. Should bids be submitted in two (2) or more envelopes, all envelopes shall be opened at the public bid opening.

(b) Bids shall be opened in public immediately after the deadline for submission of bids. No bid shall be rejected during bid opening. The name of the bidder, the total amount of each bid, and any discounts shall be read aloud and recorded in the minutes of the public bid opening. Any discount not mentioned in the cover letter or bid form shall not be taken into account in the evaluation.

(c) The evaluation of bids shall be done in strict adherence to the monetarily quantifiable criteria specified in the bidding documents and a merit point system or scoring on the basis of “technical and economical financial achievements” shall not be
used. A bid containing material deviations from, or reservations to, the terms, conditions, or specifications of the bidding documents shall be rejected as not substantially responsive. A bidder shall not be permitted to withdraw material deviations or reservations once bids have been opened. Bidders shall not be eliminated from the detailed evaluation on the basis of non-material, minor deviations or reservations.

(d) Extension of bid validity shall be allowed once only for a maximum of thirty (30) days. No further extensions should be requested without the prior approval of the Bank.

(e) Contracts shall be awarded to qualified bidders having submitted the lowest evaluated substantially responsive bid.

(f) There shall be no negotiations, even with the lowest evaluated bidder, without the Bank’s prior concurrence. A bidder shall not be required, as a condition of award, to undertake obligations not specified in the bidding documents or otherwise to modify the bid as originally submitted.

(g) The Borrower shall publish the following information on contract award on a free and open access website when it becomes operational or on another means of publication acceptable to the Bank: (i) name of each bidder who submitted a bid; (ii) bid prices as read out at bid opening; (iii) name and evaluated price of each bid that was evaluated; (iv) names of bidders whose bids were rejected and the reasons for the rejection; and (v) name of the winning bidder, price it offered as well as the duration and summary scope of the contract awarded. This publication will be updated at least quarterly.

(h) The Borrower shall declare a firm ineligible, either indefinitely or for a stated period, to be awarded a contract financed by the Bank and the Government, if it at any time determines that the firm has, directly or through an agent, engaged in corrupt, fraudulent, collusive or coercive practices in competing for, or in executing, a Bank-financed contract.

G. Suppliers and Contractors

Bidding documents and contracts shall include a provision requiring bidders and contractors to permit the Bank to inspect their accounts and records relating to the bid submission and contract performance and to have them audited by auditors appointed by the Bank, if so required by the Bank.

H. Price Adjustment

Contracts of long duration (e.g. more than eighteen (18) months) shall contain an appropriate price adjustment clause.
I. Rejection of All Bids

(a) All bids shall not be rejected and new bids solicited without the Bank’s prior written concurrence.

(b) When the number of bids received is less than two (2), re-bidding shall not be carried out without the Bank’s prior concurrence.

J. Securities

No advance payments shall be made to contractors without a suitable advance payment security. The wording of all such securities shall be included into the bidding documents and shall be acceptable to the Bank. The contract shall provide for repayment of any advance payment in equal installments throughout the course of contract performance.

K. Complaints by Bidders

The Borrower shall establish an effective bid protest mechanism related to the procurement process and contract award, acceptable to the Bank that allows for bidder protests and the timely handling of such protests. The procedures to receive and handle complaints shall be disclosed in the bidding documents.
