This Annex will be applicable to, and form an integral part of, all agreements entered into between IFC, the Bank and entities that provide contributions (collectively, the “Donors”) (the aggregate of all contributions from the Donors, the “Contributions”) to be administered by IFC for the IFC Donors’ Trust Fund (TF071837).

**IFC Activities will cover financial infrastructure improvements, advisory services to financial institutions and corporate governance and training program for MSMEs**

**Financial infrastructure program,**
IFC will extend its work on credit bureaus, secured transaction reforms and collateral registries as well as mobile payment in Arab countries with a focus on MSME finance. IFC has a dedicated team of 3 senior experts for this program. The objective of program is to increase the private sector’s access to credit in Arab countries by strengthening lenders’ rights in movable assets, supporting the development of leasing as a new financing tool for SMEs, developing effective credit reporting environment and enhancing the framework for effective branchless banking solutions. This objective is achieved through legislative reform resulting in enactment/amendment of laws, and awareness raising and capacity building activities to increase knowledge among stakeholders’ (both government and private sector) about the benefits of well-functioning financial infrastructure.

The program is expected to leverage IFC partnership with the Arab Monetary Fund to improve the financial infrastructure for lending to MSMEs. IFC currently has a team of four staff fully dedicated to this financial infrastructure program.

**Advisory to Financial Institutions**
IFC will lead on advisory services to financial institutions to strengthen their capacity for sustainable and innovative MSME banking. Of particular emphasis is building capacity of financial institutions to better serve women entrepreneurs and youth. IFC has hired an experienced gender specialist for marketing and designing banking products serving women enterprises.

Over the course of the program, IFC expects to advise 15 to 20 Arab banks on market analysis and product development, underwriting policy, risk management and women entrepreneur finance. This program is expected to have a significant impact on the volume and quality of banking services to SMEs in the Arab world.

IFC will also provide advisory services to at least 15 microfinance institutions in priority countries. It currently has a portfolio of 5 microfinance projects in the region supported by a team of 5 microfinance experts with good experience in the region and fluency in Arabic or French. This program is expected to have an impact on the sustainability and quality of products offering of MFIs in the Arab world. IFC technical support to MFIs will focus on three areas:

1. Strengthening the institutional capacity of MFIs with a focus on risk management to better cope with the ongoing crises.
2. Diversifying products, most MFIs are still focusing on microcredit, while savings and insurance services are very important and require scaling up in the context of MENA.
3. Responsible finance, by facilitating the integration of MFIs in credit bureaus (already ongoing in Morocco and Egypt) and providing TA support to MFIs on responsible lending practices and financial literacy programs to clients.

**MSME capacity building**
IFC will deploy its flagship management training program for SMEs (Business Edge) as well as its web-based SME training program delivered through banks in five Arab countries. IFC will ramp up its existing corporate governance program with a focus on Morocco, Tunisia, Egypt, and Jordan.

**Monitoring and Evaluation**
IFC has built a strong in-house management and evaluation system to monitor project performance and evaluate impacts. Each project has clear outputs, outcomes, and impact objectives and is supervised biannually (June and December) by management and the M&E unit.

**Categories of Expenditures**
Expenditures will include those of WBG’s consultants and staff dedicated to the implementation of the IFC Activities, equipment, workshops/training, grants, office space and furniture, travel and communications, public relations and business development expenses, and any other costs, all to the extent incurred for the implementation of the IFC Activities. IFC will utilize the Donors’ Funds for the payment of salaries and benefits for WBG’s staff and consultants only to the extent that their work is dedicated to the implementation of the IFC Activities.

**Start of Implementation of the IFC Activities**
Funds from the IFC Donors’ Trust Fund may be used by IFC to pay for any expenditure incurred in connection with the implementation of the IFC Activities on or after January 1, 2012 until the date determined in accordance with paragraph 7.1 of the Standard Provisions (Annex D).

The cost of the single audit will be borne by the WBG.

5.4 In addition, if the Donor wishes to request, on an exceptional basis, a financial statement audit of the IFC Donors’ Trust Fund or the WB Multi-Donor Trust Fund by WBG’s external auditors, the Donor
and IFC or the Bank, as the case may be, will first consult as to whether such an external audit is necessary with respect to its trust fund. 7.3 Following the final disbursement date specified in paragraph 7.1 above, each of IFC and the Bank shall return any remaining balance of the Contributions on its Trust Fund to the Donors or to the relevant Donor Balance Account on a pro rata basis based on the Donors’ paid Contributions to that Trust Fund. In the event of a cancellation, IFC and/or the Bank, as the case may be, shall promptly return to the relevant Donor or Donors or to the relevant Donor Balance Account such Donor’s pro rata share of uncommitted Contributions in its Trust Fund in accordance with paragraph 7.2.
